

FELLOWSHIP WORSHIP HEALING

Hearts Going Toward Wellness

is a movement of God that invites people to come together over a four day conference, to experience the process of healing spiritually from painful heart wounds in their past. These wounds often begin early in life and can have a snowball effect as we go through life. Unresolved wounds often dictate how we live our lives in relating to others.

The result for a person who continues on their healing journey will become more effective in serving Jesus Christ and others with a new freedom.
